Winter Weather Briefing

Saturday, February 21, 2015

For South Central Indiana and Central Kentucky

Snow and Ice Today

Heavy Rain and Minor Flooding Today Through Sunday

Prepared 2/21/2015 4:45 AM EST

National Weather Service – Louisville, Kentucky

Weekend System Overview

- Precipitation changing to rain today, especially south. Mix likely to continue north. Moderate to heavy rain at times today in southern Kentucky.

- North: 3-6” snow/sleet and light icing possible. Transition Zone: Up to 1” snow/sleet and up to 0.10” ice. South: Light glaze ice before switching to mainly rain.

- 1 – 2.5” rain expected. Heaviest amounts southern KY.

- Heavy rain on melting snow, combined with poor drainage would result in flooding problems.
