Temperature Summary

- Arctic front blasts through the region late Sunday night into Monday morning.
- Bitterly cold temperatures expected Monday through Wednesday, particularly on Tuesday.
 - Some places may remain below freezing for up to 90 hours.
- Northerly winds will produce dangerously low wind chill values

WIND CHILLS

Sunday PM – Monday AM	Monday	Monday PM – Tuesday AM	Tuesday	Tuesday PM – Wed. AM
0° to 20° F	5° to 25° F	-20° to -5° F	0° to 15° F	-20° to 0° F

*****Lowest wind chills Tuesday and Wednesday mornings*****

Confidence

- **Storm Track – High**
- **Precipitation Type – Moderate (Possibly beginning as drizzle or freezing drizzle turning over to mainly snow)**
- **Snow Timing – Moderate (begins Sunday afternoon/evening and ends Monday afternoon)**
- **Strong Winds – High (Northerly winds 20 to 30 mph with higher gusts)**
 - Blowing and drifting snow expected
- **Snowfall amounts – Low**
 - Due to location of heaviest band and moisture quality
- **Dangerously Cold Wind Chills – High**
 - Especially Tuesday and Wednesday mornings

Impacts

- Travel concerns mainly across the northeast half of the Panhandles due to possible snow covered roads on:
 - All Highways and Surface Streets
- Visibility restrictions due to the falling and/or possible blowing and drifting of the snow
- Dangerously cold Wind Chills Monday through Wednesday mornings
 - Especially Tuesday and Wednesday mornings
