MINTON'S SUGGEST . . .

If you like quality and a bargain all in one neat package, we have it! More specifically, the excellent Swedish stainless holloware by Fraser is back again . . . and at their Spring Sale prices. Although these pieces have been designed for serving, it may be used in the oven to heat or cook foods . . . and . . . you'll be pleased to know it will not tarnish nor lose its lustrous finish even in a dishwasher. There's a fine selection of bowls, trays, vegetable dishes and a very useable pitcher . . . each ideally suited for casual entertaining. Best news yet . . . it's all at Spring Sale prices, which is a fact worth remembering. One last suggestion . . . do consider this stainless for silver anniversary gifts if giving actual silver holds no appeal . . . have heard several people say they like it better . . .

Have been meaning to mention silver chests in case you're interested . . . Have a fine selection at the moment which can fill your needs whether they be large or small. By far the most popular have been the flat zippered case which fits in a drawer and the lovely two-drawer fruitwood chest . . . handsome storage for much silver. Would also consider these very acceptable wedding gifts, too. Wouldn't you???
