

NATIONAL WEATHER SERVICE NATIONAL WEEK OF SERVICE

September 25-October 1, 2011

Team EWX

During the first National Week of Service, the staff at the Austin/San Antonio Weather Forecast Office volunteered time and effort to connect with people in their communities. A variety of activities, events, organizations and programs presented golden opportunities for individuals from the weather office to serve others in the spirit of charity. Many acts of kindness during this week were personal and private such as helping a neighbor cut their lawn or toting groceries to a vehicle for the elderly or donating money for the "Help Cure Cancer" campaign. One staff member worked on a neighborhood beautification project. Another participated in a well-organized, public event to sort canned food items for the San Antonio Food Bank. Another one helped the New Braunfels High School Marching Band to prepare for their performance at a local game.

The staff also enrolled in the Texas Department of Transportation (TXDOT) Adopt-A-Highway program to maintain a stretch of road near the weather office. Truly, the staff demonstrated a measure of humility and compassion by serving others in need and embracing the philosophy of service above self.

**Team EWX...there for you
at all times!**
