	04/01/11 00:00 CST		0	Drought
	04/30/11 23:59 CST		1.23M	
<p>The prolonged drought continued to worsen during the month of April but some rainfall near the end of the month provided a little relief to mainly the northeastern counties of north Texas. However, several rounds of severe weather during the latter half of the month damaged crops and fields. The drought was the worst in Leon, Robertson, and part of Milam counties where exceptional drought (D4) persisted for most of the month. Wildfires became a significant problem this month over the western half of the CWA due to the extremely dry conditions. During the month, 33 counties had Burn Bans.</p>				
(TX-Z118) TARRANT				
	04/03/11 16:00 CST		0	Strong Wind (MAX 35 kt)
	04/03/11 16:00 CST		0

A 1 acre wildfire in Montague County burned 60 square bales of hay.				
(TX-Z115) STEPHENS, (TX-Z116) PALO PINTO				
	04/09/11 18:30 CST		0.12B	Wildfire
	04/29/11 23:59 CST		0.17M	
The Possum Kingdom Fire Complex consisted of four separate wildfires that merged into one large complex due to critical fire weather conditions and windy days. The four fires were the Possum Kingdom West Fire, the Possum Kingdom East Fire, the Hohertz Fire, and the Jackson Ranch Fire. In all, 126,734 acres were burned by this complex, 167 homes and 2 churches were destroyed, and another 124 outbuildings were lost. Most of the destroyed homes were on the south and west sides of Possum Kingdom Lake, and 90% of Possum Kingdom State Park was torched. In addition, several heads of cattle were killed by the fires and many more were burned or injured. The estimated damage from these fires was over \$150 million, and the Texas Forestry Service estimated the cost to fight the fire was over \$11 million.

Trees were uprooted and roofs were damaged by straight-line winds in Terrell. A mobile home on Hwy 34 north of Terrell was rolled onto its side and one end collapsed.				
HUNT COUNTY --- 0.7 S QUINLAN [32.89, -96.13], 3.2 E LONE OAK [33.00, -95.87]				
	04/11/11 01:30 CST		0.10M	Thunderstorm Wind (EG 78 kt)
	04/11/11 01:30 CST		0	Source: Law Enforcement
Thunderstorm winds produced widespread damage near Quinlan and across areas south of Greenville in Hunt County. The strongest hit areas were along a line from near Cash to Lone Oak. Winds downed numerous trees, power lines and damaged several structures in these areas.				
HUNT COUNTY --- 0.7 NE CASH [32.99, -96.11], 1.5 NE WIELAND [33.04, -96.01]				
	04/11/11 01:34 CST		0.25M	Tornado (EF1, L: 6.53 mi , W: 200 yd)
	04/11/11 01:48 CST		0	Source: NWS Storm Survey
A tornado touched down near the town of Cash and then moved northeast producing a non-continuous path of damage over 6 miles long. Up to 8 homes, a pipe manufacturing plant and two metal buildings were damaged in Cash. In addition, four U-haul trailers were blown across the highway in Cash. As the tornado continued northeast out of Cash, it damaged several more homes with most of them sustaining minor roof damage. However, one home sustained significant damage to the roof and second story near FM 1564 and FM 3519. Just before the tornado lifted, it damaged 5 more mobile homes, one of which was destroyed, and also significantly damaged a single family residence near the intersection of FM 1564 and Highway 69. This tornado has been rated an EF-1 with estimated maximum wind speeds of 100 to 110 mph.				
HOPKINS COUNTY --- CUMBY [33.15, -95.85], 1.7 SSW NELTA [33.30, -95.48]				
	04/11/11 01:45 CST		15K	Thunderstorm Wind (EG 65 kt)
	04/11/11 02:25 CST		0	Source: Newspaper
Several trees were knocked down across the county but the hardest hit area was along Hwy 19 north of Sulphur Springs. On either side of the highway, numerous trees were knocked down and many trees blocked roads. On CR 4769, a carport was blown across the road. The roof of an unoccupied trailer on CR 4591 was ripped off. A few trees were also knocked down across the southern half of the county.				
HOPKINS COUNTY --- 1.0 W SULPHUR SPGS [33.13, -95.62]				
	04/11/11 02:05 CST		7K	Thunderstorm Wind (EG 70 kt)
	04/11/11 02:05 CST		0	Source: Law Enforcement
A large tree was blown through power lines by thunderstorm winds on Reservoir St. in Sulphur Springs. A utility pole near Mulberry Street and Middle Street was snapped in two.				
A strong upper level low pressure system over the southern Rockies aided in the late evening development of severe thunderstorms along a dryline across north central and central Texas. One of these storms was a strong linear mesoscale convective system which produced a swath of wind damage from Goldthwaite northeast into southern portions of the Dallas/Fort Worth Metroplex and continued northeast to near Sulphur Springs. A swath of wind damage consistent with 70 to 80 mph winds was associated with this storm. Other supercell thunderstorms in the area produced brief tornadoes and large hail.

	04/14/11 23:18 CST		0	Source: Emergency Manager
Kaufman County Emergency Management estimated 60 mph winds just east of Terrell.				
<p>A powerful, negatively-tilted upper level trough moved into the Central Plains during the late afternoon hours which aided in the development of supercell thunderstorms near the intersection of a cold front and dryline in north central Texas. These storms developed near the Interstate 35 corridor and the Red River during the early evening hours, and then continued south-southeast through the Dallas/Fort Worth Metroplex. These storms primarily produced golfball sized hail, however several reports of damaging winds were reported in Dallas County, likely associated with a microburst in the northeastern portion of the county. Unfortunately, a 5-year old boy drowned on Lake Benbrook in Tarrant County when their boat capsized due to strong winds produced by a nearby thunderstorm.</p>

Storm Data and Unusual Weather Phenomena - April 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	04/15/11 15:00 CST		0.30M	Wildfire
	04/15/11 15:00 CST		0	

Strong winds gusting up to 50 mph damaged a 100-year old store in Denison and ripped the roof off the gym at Bridgeport High School. The strong winds also fanned a fire that burned a 100 year-old home outside of Decatur.

(TX-Z118) TARRANT, (TX-Z133) JOHNSON, (TX-Z134) ELLIS, (TX-Z144) BOSQUE, (TX-Z145) HILL

04/17/11 00:00 CST	0	Drought
04/30/11 23:59 CST	65K	

The prolonged drought continued to worsen during the month of April but some rainfall near the end of the month provided a little relief to mainly the northeastern counties of north Texas. However, several rounds of severe weather during the latter half of the month damaged crops and fields. During the month, 33 counties had Burn Bans.

(TX-Z116) PALO PINTO

04/17/11 10:40 CST	0.20M	Wildfire
04/30/11 23:59 CST	0.12M	

The PK East Fire began in northern Palo Pinto County and became part of the PK Complex Fire. A total of 126,734 acres were burned by this complex, and the PK East Fire burned nearly 11,000 acres. One church was burned by this fire.

DENTON COUNTY --- KRUM [33.27, -97.25]

04/25/11 19:58 CST	4K	Hail (1.75 in)
04/25/11 19:58 CST	0	Source: Public

Numerous severe thunderstorms developed along a dryline as an upper level disturbance approached north Texas. The atmosphere was very unstable and perfectly primed for supercell thunderstorms. The severe weather primarily affected areas south and east of an Erath to Cooke County line due to the positions of the dryline and a southward moving cold front. Hail up to the size of tennis balls and downburst winds up to 80-90 mph occurred across portions of the region. There was also 11 EF-0 tornadoes confirmed during the afternoon and evening hours of the 25th.

Quarter size hail was reported north of Klondike.

A few severe thunderstorms developed over the northeastern counties of north Texas, along and east of Interstate 35 and north of Interstate 20. These storms developed in an unstable environment ahead of a cold front moving through the region. They produced mostly quarter sized hail, but golfball sized hail did fall in the Mesquite area in Dallas County.
