	05/01/11 00:00 CST		0	Drought
	05/31/11 23:59 CST		0.58M	
<p>Rain during the end of April and scattered throughout the month of May did little to ease the prolonged drought conditions across much of north Texas. The area that saw the most relief was locations in and northeast of the DFW Metroplex. However, the rainfall during the month still provided some temporary relief to area farmers and helped corn, grain sorghum, soybeans, pastures, and hay land. Unfortunately, with the rain also came hail and high winds that damaged fields and crops as well. Exceptional drought conditions (D4), according to the US Drought Monitor, continued across much of the southern and southeastern counties of north Texas. Drought impacts include fields shriveling up leaving farmers little if anything to harvest, pastures burning up due to wildfires, and ranchers forced to sell their herds early. During the early part of the month, a total of 28 counties had burn bans, but many of the counties had removed the burn bans by the end of the month due to the several days of rainfall.</p>				
STEPHENS COUNTY --- 3.0 SSE LA CASA [32.56, -98.66]				
	05/01/11 01:01 CST		1K	Hail (1.75 in)

Lightning struck a church in Little Elm and caused a fire in the attic. The attic was damaged and the interior of the building sustained water damage.

Storm Data and Unusual Weather Phenomena - May 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

A prolonged severe weather event began during the early morning hours of May 1st and lasted into the overnight hours of May 2nd. A cold front moved through the northern sections of the Fort Worth County Warning Area, and the initial round of severe thunderstorms occurred north of this boundary during the morning hours of the 1st. These storms produced damaging winds and hail up to the size of baseballs. Additional rounds of severe storms developed north of the boundary during the afternoon and evening hours of the 1st. Little wind damage occurred from these storms but hail up to the size of golfballs were reported. The severe weather primarily affected locations north of a Mills to Ellis to Grayson County line.

(TX-Z102) WISE

05/10/11 17:55 CST	15K	Strong Wind (MAX 48 kt)
05/10/11 17:55 CST	0	

Strong winds from a shower knocked down a few business signs in Decatur. The nearby automated weather station measured a 52 MPH wind gust.

PALO PINTO COUNTY --- 2.5 SSW POSSUM KINGDOM LAKE [32.87, -98.52]

05/11/11 11:20 CST	0	Thunderstorm Wind (EG 56 kt)

	05/11/11 21:45 CST		0	Flood (due to Heavy Rain)
	05/12/11 02:45 CST		0	Source: Newspaper
Residual flooding of several streets and areas on the Fort Hood Air Force Base continued for several hours after the storms had ended.				
<p>Scattered thunderstorms developed along a dryline during the early afternoon hours. These storms consolidated into a couple of linear mesoscale convective systems that produced wind damage mainly north of the Interstate 20 corridor. During the evening hours, storms consolidated into a long quasi-linear convective system across the CWA. Isolated reports of large hail and wind damage occurred during the evening hours as well as heavy rainfall which led to localized flash flooding. Two EF-0 tornadoes also occurred on this day; one in Cooke County and the second in Tarrant County.</p>				
LAMPASAS COUNTY --- 1.0 SE KEMPNER [31.07, -97.99]				
	05/12/11 08:34 CST		2K	Thunderstorm Wind (EG 50 kt)
	05/12/11 08:34 CST		0	Source: Trained Spotter
Fences were blown down a mile southeast of Kempner.				
A thunderstorm produced minor wind damage near Kempner.				
JACK COUNTY --- 2.0 SW VINEYARD [33.15, -98.00]				
	05/12/11 17:57 CST		0	Hail (0.75 in)
	05/12/11 17:57 CST		0	Source: Trained Spotter
Penny sized hail was reported 2 miles southwest of Vineyard.				
<p>During the evening hours, a few thunderstorms developed along a dryline positioned across the western counties of north Texas. Most of the severe weather activity occurred in Oklahoma, closer to the upper level low positioned in the Central Plains, but one thunderstorm in Jack County produced penny sized hail.</p>				
MILLS COUNTY --- GOLDTHWAITE [31.45, -98.57]				
	05/20/11 12:25 CST		10K	Hail (1.75 in)
	05/20/11 12:25 CST		0	Source: Law Enforcement
Golfball sized hail fell in Goldthwaite. The hail broke glass windows at the Mills County Courthouse, damaged skylights at the elementary school, and dented cars.

	05/24/11 18:27 CST		0	Source: Trained Spotter

Golfball to baseball sized hail was reported about 2 miles north of Springtown.

COOKE COUNTY --- 1.0 SW LINDSAY [33.64, -97.24]

	05/24/11 18:28 CST		0	Hail (1.25 in)
	05/24/11 18:28 CST		0	Source: Public

Half dollar sized hail was reported 1 mile southwest of Lindsay.

TARRANT COUNTY --- 1.8 NW HASLET [32.99, -97.37]

	05/24/11 18:30 CST		12K	Hail (2.00 in)
	05/24/11 18:35 CST		0	Source: NWS Employee

Hail stones up to 2" in diameter fell in the Sendera Ranch neighborhood just west of Haslet.

PARKER COUNTY --- 1.6 ESE LA JUNTA [32.91, -97.58]

	05/24/11 18:33 CST		50K	Thunderstorm Wind (EG 65 kt)
	05/24/11 18:33 CST		0	Source: NWS Storm Survey

A NWS Storm Survey determined that straight-line winds damaged the gas pump canopy at the Allsup's on Highway 199 west of Azle. Part of the cover was peeled off. Large tree branches were also knocked down in the same area. The strong winds continued east into Azle where more damage occurred. The Popcorn Players' theater, Josefina's Kitchen restaurant, and the Aqualine Pools building in Azle were damaged. Air conditioning units were moved on all the roofs. Part of the metal roof of the theater was peeled off and hit the back of a pickup truck.

COOKE COUNTY --- 1.9 ENE ERA [33.51, -97.27], 3.4 ENE ERA [33.52, -97.24]

	05/24/11 18:34 CST		0	Tornado (EF0, L: 1.56 mi , W: 100 yd)
	05/24/11 18:36 CST		0	Source: Storm Chaser

A storm chaser videoed a tornado southwest of Gainesville for nearly 4 minutes. The tornado damaged some trees.

PARKER COUNTY --- 1.2 E LA JUNTA [32.92, -97.58]

	05/24/11 18:35 CST		75K	Hail (4.00 in)
	05/24/11 18:35 CST		0	Source: Trained Spotter

Grapefruit sized hail was reported 1 mile north of Sanctuary.

PARKER COUNTY --- 0.6 WSW LA JUNTA [32.92, -97.61], 0.3 SW LA JUNTA [32.92, -97.60]

	05/24/11 18:38 CST		10K	Tornado (EF0, L: 0.42 mi , W: 40 yd)
	05/24/11 18:40 CST		0	Source: Amateur Radio

A tornado was observed approximately 1.5 miles northwest of Sanctuary along Spring Valley Court. The roof of a mobile home was damaged and trees were damaged along the path of the tornado. Panels were torn off the roof of the mobile home and tossed into the back yard. This tornado was rated an EF-0 with maximum estimated winds of 85 MPH.

WISE COUNTY --- 2.2 SW BRYAN [33.08, -97.45]

	05/24/11 18:38 CST		2K	Tornado (EF0, L: 0.03 mi , W: 30 yd)
	05/24/11 18:39 CST		0	Source: Amateur Radio

A brief tornado was observed about 3 miles north of Rhome. Some minor damage was reported to barns, and this tornado was rated an EF-0 with maximum estimated winds of 75-80 MPH.

TARRANT COUNTY --- AZLE [32.90, -97.53]

	05/24/11 18:39 CST		0	Hail (1.00 in)
	05/24/11 18:39 CST		0	Source: Amateur Radio

TARRANT COUNTY --- AVONDALE [32.97, -97.42]

Storm Data and Unusual Weather Phenomena - May 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details

Softball sized hail fell just west of Willow Springs Golf Course. The hail knocked tiles off a pool and left holes in the roof of at least one home.

TARRANT COUNTY --- 2.7 W FT WORTH SAGINAW ARP [32.88, -97.43]

05/24/11 18:50 CST	7K	Thunderstorm Wind (EG 52 kt)
05/24/11 18:50 CST	0	Source: NWS Employee

Trees were blown down and shingles were blown off the roofs of an apartment complex on Boat Club Road near Lake Worth.

TARRANT COUNTY --- 3.1 NW KELLER ALTA VISTA AR [32.93, -97.32]

05/24/11 18:50 CST	50K	Hail (1.75 in)
05/24/11 18:50 CST	0	Source: NWS Employee

Golfball sized hail was reported 4 miles west of Keller.

DENTON COUNTY --- 1.3 NNW ARGYLE [33.14, -97.19], 2.4 N ARGYLE [33.15, -97.18]

05/24/11 18:51 CST	0.75M	Tornado (EF2, L: 1.52 mi , W: 220 yd)
05/24/11 18:56 CST	0	Source: NWS Storm Survey

A NWS Storm Survey determined that a EF-2 tornado began near the Argyle/Denton city line and traveled northeast for just over 1 mile. The tornado began in the Country Lakes subdivision where it significantly damaged the roofs of numerous homes. At least 10 to 12 homes sustained moderate damage. However, two homes lost part of their roofs on the order of EF-2 damage. To the northeast of the subdivision, near Johnson Lane, another home sustained minor roof damage and a barn was destroyed. Trees were also damaged along the path of the tornado. Maximum winds with this tornado were estimated between 115 and 125 MPH.

TARRANT COUNTY --- 0.4 NW KELLER [32.93, -97.25]

05/24/11 18:55 CST	25K	Hail (2.75 in)
05/24/11 18:55 CST	0	Source: Newspaper

Baseball sized hail fell near the intersection of Highway 377 and Keller Parkway.

TARRANT COUNTY --- 0.6 W FT WORTH SAGINAW ARP [32.87, -97.39]

Ping pong ball sized hail was reported in the southern portions of Euless by a NWS meteorologist.

TARRANT COUNTY --- 0.8 SSE WATAUGA [32.84, -97.26], 1.6 WSW FT WORTH MANGHAM ARP [32.84, -97.23]

	05/24/11 19:11 CST		0.20M	Thunderstorm Wind (EG 65 kt)
	05/24/11 19:21 CST		0	Source: NWS Employee

Seventy to seventy-five MPH winds were estimated along and just north of Loop 820 from Highway 377/Denton Highway to near Holiday Lane. These strong winds damaged several business signs and the roof of a commercial building at Loop 820 and Rufe Snow Drive. Several large trees and power poles were also knocked down along Rufe Snow Drive north of Loop 820. In the neighborhood around Richland Hills High School, many large tree limbs were broken, a few power poles were leaning about 20 degrees, and some trees were either split or knocked down. One tree fell on a house and damaged the roof.

TARRANT COUNTY --- 1.0 SE BEDFORD [32.84, -97.12]

	05/24/11 19:13 CST		30K	Hail (1.75 in)
	05/24/11 19:13 CST		0	Source: Broadcast Media

Golfball sized hail fell near Highways 183 and 121 in Bedford.

DALLAS COUNTY --- COPPELL [32.95, -97.02]

	05/24/11 19:14 CST		0	Hail (1.00 in)

A NWS Storm Survey determined that an EF-1 tornado occurred in the city of Irving, south of Highway 183. This tornado began along West Grauwlyer Road and traveled nearly due south about one and a third miles before lifting near Story Road and 5th Street. Significant tree damage occurred in the Sherwood Forest neighborhood and some roofs were damaged in the same neighborhood. Most of the damage occurred south of Conflans Road along Huntington Drive. One large tree fell through the second story of a home. A small apartment complex at the end of Highland Park Drive was also significantly damaged. The roof was partially torn off one building, and the chimney and A/C vents were also torn off the same roof. Roof damage was observed on other apartment buildings and many windows were broken. South of the apartment complex, across Rock Island Road, the metal roof of a small retail building was torn off, and other buildings in the same retail center sustained damage. Significant tree damage also occurred along the southern portions of the tornado track. Maximum estimated winds were 105 MPH.				
DALLAS COUNTY --- 2.2 NW IRVING [32.84, -96.95]				
	05/24/11 19:25 CST		75K	Thunderstorm Wind (EG 65 kt)

05/24/11 21:43 CST	0	Tornado (EF0, L: 0.01 mi , W: 20 yd)
05/24/11 21:44 CST	0	Source: Trained Spotter

A brief tornado occurred near Cedarvale in eastern Kaufman County. Minor tree damage occurred, and this tornado was rated an EF-0.

KAUFMAN COUNTY --- 0.7 NNW KAUFMAN [32.59, -96.32]

05/24/11 22:17 CST	8K	Thunderstorm Wind (EG 61 kt)
05/24/11 22:17 CST	0	Source: Fire Department/Rescue

Seventy MPH wind gusts were estimated in Kaufman at Highway 243 and Highway 175.

Three rounds of thunderstorms affected north Texas with 10 tornadoes confirmed. The atmosphere was highly unstable on this day and a High Risk was issued by the Storm Prediction Center for the northwestern counties of north Texas while a Moderate Risk covered much of the rest of north Texas. A strong upper level disturbance approaching from the west interacted with a dryline across the western portions of north Texas, and the first round of storms began to develop around 330 pm in the western counties. The first two rounds of storms remained along and north of Interstate 20 but the third round of storms later that night moved through most of the region as a line of storms. The most significant tornado occurred in the western limits of the city of Denton where EF-2 damage occurred. An EF-1 tornado also occurred in the city of Irving in Dallas County, and softball sized hail fell in the northern portions of the Metroplex. In the city of Dallas, one person died from electrocution after going outside around live, downed wires after a storm had passed.
