	09/30/11 23:59 CST		1.30M	

Drought conditions continued to worsen across much of the Fort Worth County Warning Area (CWA) during the month of September due to very little rainfall. All 46 counties in the Fort Worth CWA were experiencing at least extreme drought conditions (D3) throughout the entire month. By the end of the month, 37 out of the 46 counties in the Fort Worth CWA were classified in exceptional drought (D4). Counties along the Interstate 20 corridor continued to experience slightly better drought conditions than counties along the Red River and the counties to the south. Every county had burn bans established by local officials throughout the month.

Storm Data and Unusual Weather Phenomena - September 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	09/02/11 13:00 CST		4.99M	Wildfire
	09/21/11 11:00 CST		0.41M	

Hot and dry conditions across the region on the 2nd and 3rd resulted in elevated fire weather conditions. A few fires started on these days but several more fires began on the 4th and 5th behind a strong cold front. The cold front moved through the region on the 4th bringing strong and gusty north winds with it. On the 5th, humidity values fell dangerously low. A Red Flag Warning was issued for parts of the area on the 4th and 5th. Over the holiday weekend, over two dozen wildfires ignited with several of the fires causing damage. The largest complex of fires was in Limestone County where five fires burned 7500 acres and 7 homes. The Concord-Robbins Fire in Leon County burned 31 homes and 4689 acres.
