

# Decision Support Page Help Document

## Local Forecast Section:

Select graphic to open graphical version of local forecast.

Select text to open tabular version of local forecast.

### **Peoria Forecast**

Selection will open in a new window just below the **Local Forecast** menu.

**Close / Open** button appears once a page loads in the new window.

This allows you to toggle the window Open or Closed.

If the window is closed and you make another selection from the Local Forecast menu, then the window will toggle open automatically.
