

Storm Data and Unusual Weather Phenomena - May 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

ARKANSAS, Central and North Central

FAULKNER COUNTY --- 1.9 WSW GOLD CREEK [35.01, -92.45], 3.3 SW HOLLAND [35.14, -92.33], 2.1 SSE NAYLOR [35.14, -92.16], 4.2 NE CATO [34.97, -92.21], 1.6 NNW PALARM [34.94, -92.46]

05/01/11 00:00 CST	1	0.25M	Flash Flood (due to Heavy Rain)
05/01/11 18:00 CST		0	Source: Emergency Manager

At 1:08 AM CDT, water was approaching the doorstep of houses in Mayflower. Around 1:20 AM CDT, an SUV went into flood waters on North Main St. in Mayflower and ended up in a ditch. The water was rising so rapidly that the vehicle was completely submerged by the time rescuers arrived. The 57 year-old driver of the SUV drowned. At 12:08 AM CDT, Numerous roads flooded around Vilonia; swift-water rescues became necessary by 1:00 AM CDT. A total of 29 people had to be evacuated from the Vilonia and Mayflower areas.

Direct Fatalities: M57VE

GARLAND COUNTY --- 6.3 ENE BEAUDRY [34.75, -92.88], 2.7 NNW HIGH PT [34.57, -92.90], 1.9 WNW DIAMONDHEAD [34.44, -92.98], 1.0 WSW PEARCY [34.42, -93.30], 3.0 W CRYSTAL SPGS [34.52, -93.38], 3.2 NW MT TABOR [34.73, -93.37]

05/01/11 00:00 CST		50K	Flash Flood (due to Heavy Rain)
05/02/11 12:00 CST		0	Source: Emergency Manager

Flash flooding continued on many roads in Garland County.

MONTGOMERY COUNTY --- 1.8 WNW ALBERT [34.38, -93.90], 1.1 N ALBERT [34.39, -93.87], 0.2 SW ALBERT [34.37, -93.87], 1.5 W ALBERT [34.37, -93.90]

05/01/11 00:00 CST		10K	Flash Flood (due to Heavy Rain)
05/01/11 18:00 CST		0	Source: Newspaper

Flash flooding along the Little Missouri River at the Albert Pike Recreation Area trapped a Boy Scout troop, preventing them from returning on schedule.

PULASKI COUNTY --- 4.0 SSW WYE [34.88, -92.67], 0.7 NW LITTLE ITALY [34.94, -92.59], NATURAL STEPS [34.87, -92.47], 3.9 ENE ROLAND [34.92, -92.42], 1.1 N MACON [34.94, -92.17], 2.4 WSW BREDLOW CORNER [34.52, -92.14], 0.8 WSW CRYSTAL VALLEY [34.69, -92.46]

05/01/11 00:00 CST		3M	Flash Flood (due to Heavy Rain)
05/02/11 12:00 CST		0	Source: Public

At 1:06 AM CDT on the 1st, roads were flooded north of Jacksonville around Maddox Rd. and Old Tom Box Rd. At 2:40 AM CDT, a culvert washed out on Arkansas Highway 300 just off Arkansas Highway 10, closing the road. At 7:49 AM CDT, U.S. Highway 67/167 flooded near Jacksonville. By 8:45 AM CDT, Jacksonville Cutoff was impassable near Gravel Ridge due to high water, and an apartment complex nearby had cars submerged in the parking lot. By 10:30 AM CDT, a portion of James Rd. in the Blue Hill area washed out and was barricaded. A mobile home park in northern Pulaski County had to be evacuated. Firefighters used boats to reach residents whose houses were surrounded by water in parts of northern and western Pulaski County. Twenty-five to 30 houses flooded in the Cypress Dr. area of Jacksonville.

FAULKNER COUNTY --- CONWAY [35.08, -92.45]

05/01/11 06:00 CST		0	Heavy Rain
05/02/11 06:00 CST		0	Source: COOP Observer

Thunderstorms and heavy rain, amounting to 2.50 inches over a 24-hour period, resulted in the cancellation of the final day of the annual Toad Suck Daze in Conway.

SALINE COUNTY --- 2.0 NE COLLEGEVILLE [34.65, -92.44], 1.5 N ALEXANDER [34.64, -92.44], 0.3 WNW COLLEGEVILLE [34.63, -92.47], 0.9 N COLLEGEVILLE [34.64, -92.47]

05/01/11 09:30 CST		10K	Flash Flood (due to Heavy Rain)
05/01/11 15:00 CST		0	Source: Public

Arkansas Highway 5/Stagecoach Rd. was flooded near Alexander.

PIKE COUNTY --- MURFREESBORO [34.07, -93.68]

05/01/11 10:30 CST		0	Hail (1.00 in)
05/01/11 10:30 CST		0	Source: Law Enforcement

Hail the size of quarters fell at the sheriff's office.

SALINE COUNTY --- BRYANT [34.60, -92.48]

Storm Data and Unusual Weather Phenomena - May 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
	05/01/11 16:30 CST		25K	Flash Flood (due to Planned Dam Release)
	05/02/11 19:30 CST		0	Source: Utility Company

As a result of heavy rains, releases from Rempel Dam were periodically increased from the afternoon of the 1st into the morning of the 2nd. Flows from the dam eventually reached 55,000 cubic feet per second. Lowland flooding and some flooding of roads resulted.

CONWAY COUNTY --- 0.6 E CLEVELAND [35.42, -92.71]

05/01/11 17:32 CST	0	Hail (1.75 in)
05/01/11 17:32 CST	0	Source: Public

Hail fell on Arkansas Highway 95.

POPE COUNTY --- RUSSELLVILLE [35.28, -93.13]

05/01/11 17:36 CST	0	Hail (1.00 in)
05/01/11 17:41 CST	0	Source: Public

BAXTER COUNTY --- NORFORK [36.20, -92.28]

05/01/11 17:41 CST	0	Hail (1.00 in)
05/01/11 17:41 CST	0	Source: Law Enforcement

PIKE COUNTY --- NEW HOPE [34.23, -93.88]

05/01/11 17:41 CST	0	Hail (1.00 in)
05/01/11 17:41 CST	0	Source: Law Enforcement

CONWAY COUNTY --- 0.5 NNE CENTER RIDGE [35.38, -92.57], 1.4 NE CENTER RIDGE [35.38, -92.55]

05/01/11 18:13 CST	35K	Tornado (EF1, L: 0.97 mi , W: 75 yd)
05/01/11 18:15 CST	0	Source: NWS Storm Survey

An EF1 tornado in the Center Ridge area blew down trees. One of the falling trees damaged the roof of a house and knocked the back porch off the same house. Another falling tree landed on the house across the street. Temperatures were in the lower 50's at the time of the tornado.

POLK COUNTY --- OPAL [34.53, -93.98]

05/01/11 18:13 CST	0	Hail (1.00 in)
05/01/11 18:13 CST	0	Source: Trained Spotter

CONWAY COUNTY --- 1.9 NNE CENTER RIDGE [35.40, -92.55]

05/01/11 18:15 CST	20K	Thunderstorm Wind (EG 52 kt)
05/01/11 18:16 CST	0	Source: NWS Storm Survey

Thunderstorm winds took much of the roof off a small barn, destroyed a shed, broke two power poles, and blew trees down.

CONWAY COUNTY --- 2.0 N WONDERVIEW [35.35, -92.73]

05/01/11 18:17 CST	2K	Thunderstorm Wind (EG 52 kt)
05/01/11 18:17 CST	0	Source: Amateur Radio

A couple of trees were blown down.

PERRY COUNTY --- 0.7 N PERRY [35.06, -92.80]

05/01/11 22:26 CST	0	Heavy Rain
05/01/11 22:43 CST	0	Source: Amateur Radio

One inch of rain fell in 17 minutes.

A nearly stationary front, extending from southwest Arkansas to the east central part of the state, served as a trigger for severe weather on the 1st. The front was also responsible for heavy to excessive rainfall amounts, which began on April 30th and continued through May 2nd. The rain triggered flash flooding, which added to the areal flooding and river flooding already occurring. Thus, additional rainfall was contributed to the Great Flood of 2011. Some of the larger rainfall amounts from April 30th to May 2nd included 12.52 inches at Marche, 12.00 inches at Maumelle, 10.50 inches 2.4 miles east-southeast of Mayflower, 10.40 inches at Walton Heights in Little Rock, 9.60 inches at Clarendon, 9.49 inches at North Little Rock, 8.26 inches 4 miles southwest of Cabot, 8.05 inches at Mount Ida, 7.39 inches 5 miles southeast of Mount Ida, 7.21 inches at Georgetown, and 7.03 inches at the Hot Springs Airport. Stations reporting more than 6 inches included the Stuttgart Airport, 3.6 miles west of Searcy, Des Arc, McCrory, Little Rock Air Force Base, Langley, and Adams Field in Little Rock. Stations reporting more than 5 inches included the Newport Airport, Washita, Nimrod Dam, Brinkley, 6 miles

Parts of Arkansas Highways 1, 17, 144, and 146 were closed due to flooding. Lock 2, in a canal connecting the Arkansas and White Rivers, was closed more than two weeks. The lock was forced shut after the overflowing White and Mississippi rivers rose to levels greater than that on the Arkansas. This prevented the canal from emptying into the Mississippi. As a result, barge traffic on the Arkansas was stalled, being unable to reach the Mississippi. Flooding in Arkansas County continued into June.				
BAXTER COUNTY --- 10.0 W CLARKRIDGE [36.47, -92.53], 3.0 NE GAMALIEL [36.48, -92.19], JORDAN [36.23, -92.18], BIG FLAT [36.00, -92.40], BUFFALO [36.17, -92.45]

Widespread areal flooding continued from April into May. Parts of Arkansas Highways 13, 236, and 381 as well as U.S. Highway 70 were closed due to flooding. On the morning of the 1st, two sections of U.S. Highway 67/167 Southbound were closed due to flooding, and one section of the highway was closed Northbound. On the 2nd, Arkansas Highway 89 was closed due to high water, and fast-flowing water more than a foot deep was over Kerr Station Rd. On the 3rd, a 55 year-old man drowned when he drove around barricades into flood waters several feet deep on Arkansas Highway 236 northeast of Furlow. His body was not recovered until the 6th.

Direct Fatalities: M55VE

Part of U.S. Highway 70 was closed by flooding, as were parts of Arkansas Highways 11, 33, and 38. Part of the asphalt pavement on U.S. Highway 70 was scoured away by the water between DeValls Bluff and Biscoe. The force of the water left holes two feet deep on Arkansas Highway 38 in the northern part of the county. Dozens of houses flooded in the Des Arc area and evacuations were necessary in DeValls Bluff. Altogether, more than 270 homes in the county suffered flood damage. On the 4th, a 53 year-old man was found drowned near his home in the North Side community near Des Arc. On the 4th, westbound lanes of Interstate 40 near Biscoe were closed when the White River overflowed onto the freeway. Motorists traveling from Memphis to Little Rock had to exit the interstate at Brinkley, take U.S. Highway 49 north to Fair Oaks, then U.S. Highway 64 to Bald Knob, then U.S. Highway 67/167 to Little Rock. This detour was about 120 miles long. On the 5th, the flood waters overtook the eastbound lanes of the interstate, making it the first time that the interstate had ever been closed by flooding on the White River. Motorists exited the interstate at Hazen and took U.S. Highway 63 to Stuttgart, then U.S. Highway 165 to DeWitt, then Arkansas Highway 1 back to the interstate at Forrest City. The eastbound detour lasted only one day before the White River flooded Arkansas Highway 1 at the Arkansas/Monroe County line and a new detour had to be established. The new detour took cars from Interstate 40 south on U.S. Highway 63 to Stuttgart, east on U.S. Highway 79 to U.S. Highway 49, and then north on 49 back to the interstate. Because the bridge over the White River is old and narrow with very narrow shoulders, trucks were unable to use this route and had to take a much longer detour. Trucks went south to Dumas via U.S. Highways 63, 79, and 65 or via U.S. Highways 63 and 165. From Dumas, the trucks followed U.S. Highway 65 south all the way to Lake Village, crossed the Mississippi River on U.S. Highway 82 through Greenville, Mississippi, and then turned north on U.S. Highway 61 to Memphis. Altogether, the truck detour added about 300 miles onto the trip from Little Rock to Memphis. Water on I-40 eventually rose to the top of the concrete wall in the median. The eastbound lanes of Interstate 40 reopened on the 9th, followed by the westbound lanes on the 11th. Flooding in Prairie County continued into June.

Direct Fatalities: M53IW

PULASKI COUNTY --- WYE [34.93, -92.64], 2.0 N ROLAND [34.93, -92.48], 2.0 N MORGAN [34.91, -92.37], 3.0 N MACON [34.96, -92.17], 5.0 E WRIGHTSVILLE [34.60, -92.13], 5.0 E WAMPOO [34.55, -91.99], 5.0 E WOODSON [34.53, -92.13], 5.0 E FERNDAL [34.78, -92.46]				
	05/01/11 00:00 CST		27M	Flood (due to Heavy Rain)
	05/09/11 23:59 CST		1M	Source: Newspaper

Widespread areal flooding continued from April into May. On the morning of the 1st, Arkansas Highway 300 was closed just west of Arkansas Highway 10 due to a washed-out culvert. Also on the morning of the 1st, U.S. Highway 67/167 was closed by flooding near Little Rock Air Force Base. While this section of the highway reopened on the 2nd, a greater problem developed the same day when another section of the highway flooded between Jacksonville and Sherwood. Hours-long delays were created for motorists trying to travel to and from Little Rock. The section of Highway 67/167 that was closed typically carries about 70,000 vehicles each day. The highway reopened by the 4th. On the morning of the 2nd, six docks and more than two dozen boats broke loose from a marina on the Little Maumelle River. Much of the debris soon floated down into the Arkansas River and continued to the vicinity of Murray Lock and Dam. Pinnacle Mountain State Park was closed due to flooding. Homes were flooded in parts of Sherwood, including Indianhead Lakes and Gravel Ridge. Some homes also flooded in Jacksonville.

Some campsites at Waveland Park on Blue Mountain Lake were closed due to flooding.

Areal flooding was widespread in Arkansas, beginning early in May. The flooding was caused by large amounts of rain on April 30th, and May 1st and 2nd; high water flowing down from Missouri; and backwater flooding from rivers and large creeks and bayous. The Mississippi River was also experiencing unusually high stages, causing the White and Arkansas Rivers to back up near the rivers' confluence. Arkansas Farm Bureau estimated that more than 1 million acres of farmland were under water in the state. The flooding lasted well into May in many counties, and even into June in some of the counties in eastern Arkansas.

Widespread heavy rainfall during late April and into the first part of May caused many rivers across the state to rise above flood stage. Many of the rivers rose above flood stage in late April, and the flooding persisted through much of May. Some rivers, such as the White River, remained above flood stage for several weeks, even through early July for the Augusta forecast point. Widespread moderate to major flooding was seen, with some locations along the White river seeing record levels. This was a part of the Great Flood of 2011.

Storm Data and Unusual Weather Phenomena - May 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

The Arkansas River flooded much of Pendleton, AR (Desha County) in early May, 2011. Photo by Tabitha Clarke, Senior Service Hydrologist, WFO Little Rock. The picture was taken during a flight with the Civil Air Patrol.

Water was over Arkansas Highway 27 northeast of Mount Ida.				
A warm, humid air mass over Arkansas, a stalled front to the northwest of the area, and the periodic passage of low pressure aloft, brought rounds of thunderstorms to Arkansas from the 20th through the morning of the 24th. These storms produced an isolated tornado, along with large hail, damaging winds, and heavy rains from time to time.

Storm Data and Unusual Weather Phenomena - May 2011

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<p>Heavy rain produced flooding along the Buffalo National River. A 21 year-old man swimming in the river at Blue Hole (between Hasty and Piercetown) drowned on the evening of the 24th. He had swum across the river and was swimming back across when the current carried him away. His body was recovered five days later.</p> <p>Direct Fatalities: M21IW</p>				
<hr/>				
LOGAN COUNTY --- 2.2 WNW RATCLIFF [35.31, -93.92], 1.9 NW RATCLIFF [35.32, -93.90]				
	05/24/11 22:56 CST		25K	Tornado (EF1, L: 1.06 mi , W: 600 yd)
	05/24/11 22:57 CST		0	Source: NWS Storm Survey
<p>This is the second segment of a six-segment tornado. (The first, third, and fifth segments occurred in Franklin County in the Tulsa County Warning Area.) The tornado moved out of Franklin County east-northeast of Branch and entered Logan County 2.17 miles west-northwest of Ratcliff. The tornado clipped a small corner of Logan County, snapping and uprooting trees. The tornado then exited Logan County 1.86 miles northwest of Ratcliff and moved back into Franklin County south-southeast of Peter Pender.</p>				
<hr/>				
LOGAN COUNTY --- 2.0 NW ROSEVILLE [35.40, -93.81], 2.1 NNW ROSEVILLE [35.41, -93.80]				
	05/24/11 23:06 CST		25K	Tornado (EF2, L: 0.81 mi , W: 2200 yd)
	05/24/11 23:07 CST		0	Source: NWS Storm Survey
<p>This is the fourth segment of a six-segment tornado. (The first, third, and fifth segments occurred in Franklin County in the Tulsa County Warning Area.) The tornado moved out of Franklin County west of Denning and entered Logan County 2.05 miles northwest of Roseville. The tornado clipped a small piece of Logan County, snapping and uprooting trees. The tornado then exited Logan County 2.06 miles north-northwest of Roseville and moved back into Franklin County north-northeast of Denning.</p>				
<hr/>				
JOHNSON COUNTY --- 2.8 NW COAL HILL [35.46, -93.71], 1.8 ESE ROSETTA [35.69, -93.32]

	05/24/11 23:50 CST	11	0	Source: NWS Storm Survey
<p>This is the sixth and final segment of a six-segment tornado. (The first, third, and fifth segments occurred in Franklin County in the Tulsa County Warning Area.) The tornado moved out of Franklin County north of Alix and entered Johnson County northwest of Coal Hill. In Johnson County, the tornado first moved through the Centerpoint community, knocking down trees in the cemetery and badly damaging several residences. The tornado next moved on to the Bethlehem community, where several mobile homes were destroyed and some additional residences were damaged. A 31 year-old woman in one of the mobile homes was killed and approximately 11 other people were injured. The tornado next moved on to Harmony, damaging additional residences, barns, chicken houses, and outbuildings, before continuing into the Ozark National Forest. Damage also occurred near Ozone before the tornado lifted farther to the northeast in the forest. Altogether, at least 65 residences were damaged or destroyed in Johnson County.</p> <p>Direct Fatalities: F31MH</p>

	05/24/11 23:52 CST	4	0	Source: NWS Storm Survey
<p>This tornado moved through Clarksville, causing extensive damage at the country club and to businesses and residences on the south and east sides of town. Initially, the entire city of Clarksville was without electricity. About 70% of electric customers had power restored by the end of the day on the 25th, but the hardest-hit areas lacked power for a week. In Clarksville, the tornado took a similar path to that of a tornado which occurred on April 7, 1980. After leaving Clarksville, the tornado moved off to the northeast passing between Strawberry and Chronister Store. A 65 year-old man was killed in the area of the Strawberry community when the tornado destroyed a small house on a goat farm. Altogether, at least 150 residences in Johnson County were damaged or destroyed. The tornado continued moving to the northeast, moving into the Ozark National Forest. Many trees were blown down, blocking roads in the forest. The tornado exited Johnson County south-southeast of Dillen and entered Pope County south-southwest of Bertha.</p> <p>Direct Fatalities: M65PH</p>				
<hr/>				
POPE COUNTY --- 4.6 SSW BERTHA [35.66, -93.17], 2.6 S BERTHA [35.68, -93.12]				
	05/24/11 23:52 CST		25K	Tornado (EF1, L: 2.73 mi , W: 350 yd)
