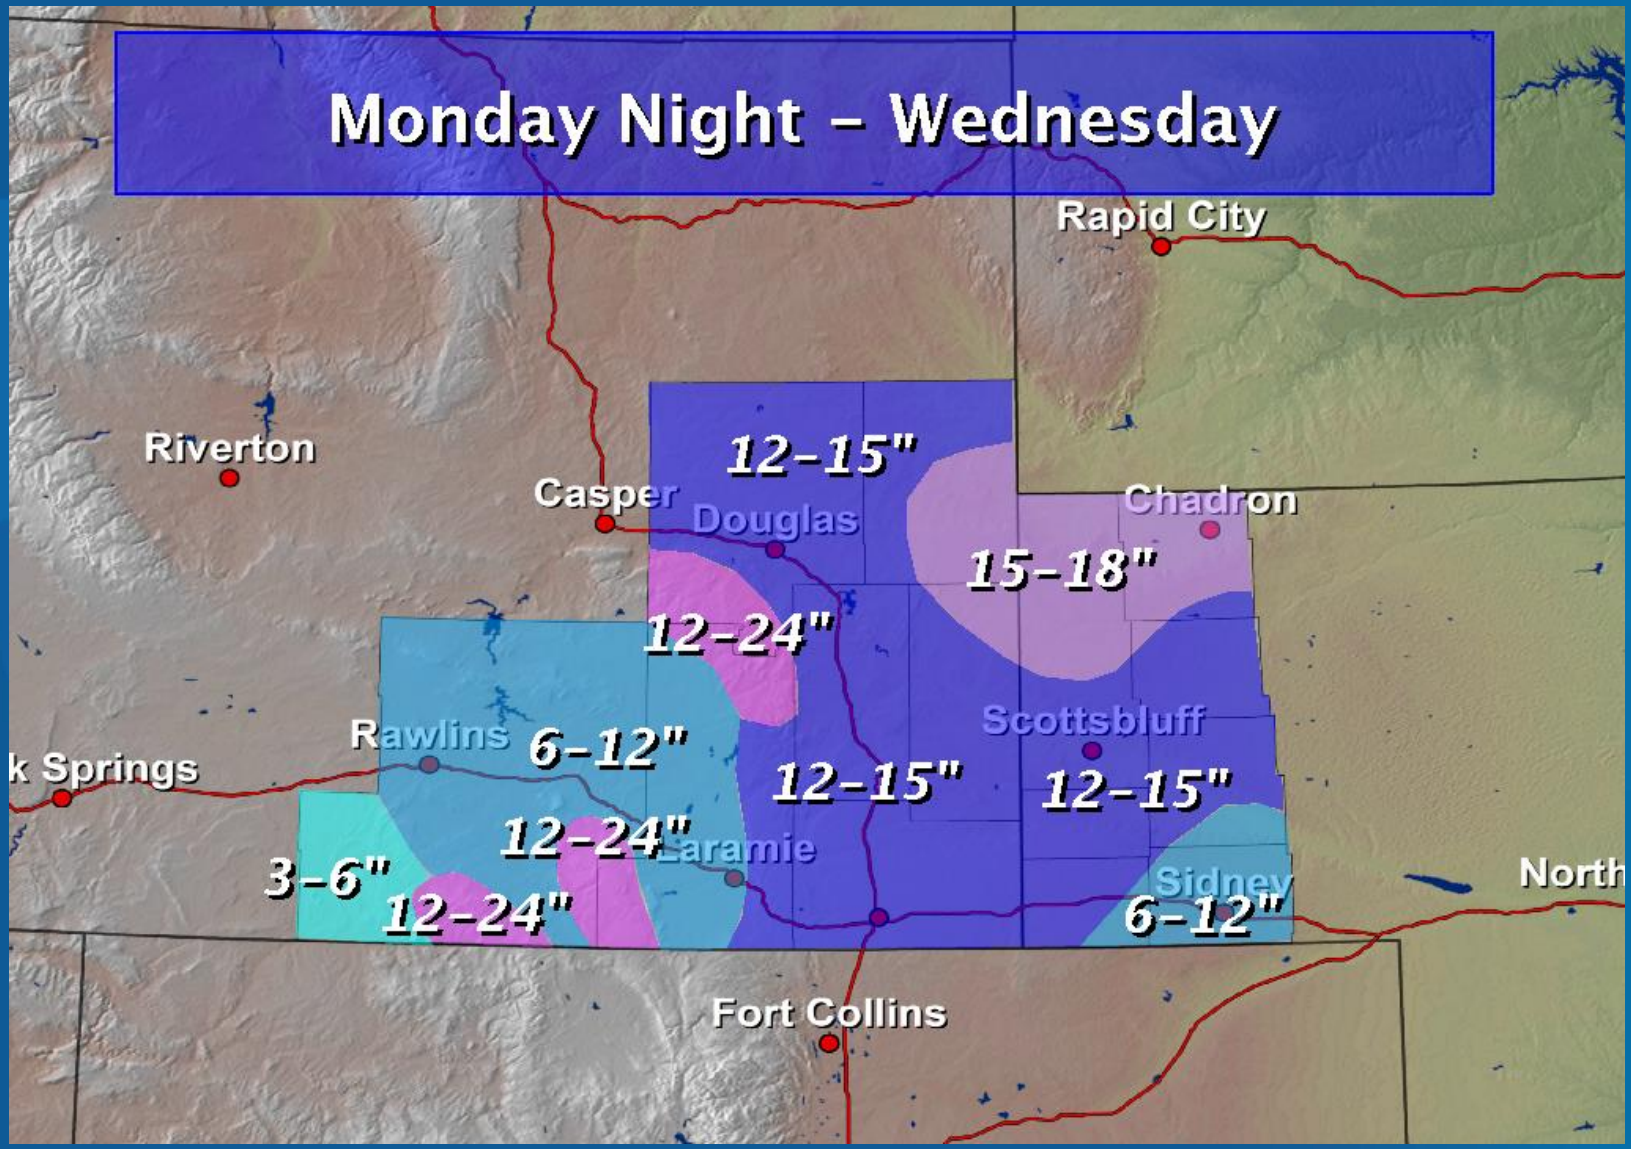
Potential Snowfall Totals



Summary

What	Moderate to heavy snow with winds gusting between 35 to 45 mph. Significant blowing and drifting snow resulting in local whiteout conditions. Wind chills will be near zero. Many areas east of the Laramie range can expect upwards of one foot of snow.
Where	This storm is expected to impact all of southeast Wyoming and the Nebraska panhandle. The heaviest snow is expected to be north of a Wheatland-Alliance line.
Impacts	Travel may become hazardous, with slick roads and poor visibilities. Cold wind chill values will also make prolonged outdoor activity hazardous. Road closures are likely due to reduced visibilities and snow covered roads.
