

WANTED: Weather Observer

The National Weather Service in Wichita, KS is looking for a Weather Observer within 5 miles of the Fredonia Area in Wilson County, KS. This person will be responsible for providing a daily report of the high and low temperature along with any precipitation. Even though this is a volunteer position, we will supply you with a high quality rain gauge and an electronic max/min thermometer which we will install. A computer with internet access to enter your observation is preferable but not absolutely necessary. The observation should not take up more than 5 minutes of your time and will maintain weather records for Fredonia that have been in place since 1904. If you have an interest, please email Scott.g.Smith@noaa.gov with your name, phone number and address.

Thanks!

Scott Smith
