

WANTED: Weather Observer

The National Weather Service in Wichita, Kansas is looking for a Weather Observer within 5 miles of the Great Bend Area in Barton County, Kansas. This person will be responsible for providing a daily report of the high and low temperature along with any precipitation. Even though this is a volunteer position, we will be supplying you with a high quality rain gauge and an electronic max/min thermometer which we will set up for you. The observation should not take up more than 5 minutes of your time and will maintain weather records for Great Bend that have been in place since 1924.

If you have an interest or need more information please Email scott.g.smith@noaa.gov with your Name and Phone Number

Thanks!

Scott Smith
