RAIN OR SHINE

Adults & Kids Welcome!

Take a peek inside the National Weather Service, where all of your forecasts, warnings, hydrological and climatological data originate. Tours will last 20-25 minutes and include a short informational multimedia video and then a walk through of the building. Many other attractions will be available such as a power line demo, NOAA Weather Radio programming, safety houses, giveaways, weather displays etc. Food/Drink will be available for purchase.
